BAS in Cyber Defense

College of Information Science

SAMPLE FOUR-YEAR PLAN | MAIN CAMPUS

Take Your Cyber Defense Degree Global.

This four-year plan is designed to give BAS CD students the flexibility to study abroad in a destination of their choice while staying on track toward graduation. By planning to complete general education requirements and electives abroad during the spring semester of sophomore year, students can explore opportunities across the University of Arizona's global study abroad portfolio without delaying progress toward their degree. Students interested in studying abroad during a different semester are encouraged to meet with their academic advisor to develop an individualized degree plan that incorporates their study abroad goals.

To complete major-specific requirements abroad, BAS CD students are encouraged to explore InfoSci's Cyber Operations Global Tracks programs in **Athens**, **London**, **Madrid** and **Sydney**. Learn more at **infosci.arizona.edu/study-abroad**.
