BS in Information Science

College of Information Science

SAMPLE FOUR-YEAR PLAN | MAIN CAMPUS

Connect Information. Explore the World.

This four-year plan is designed to give BSIS students the flexibility to study abroad in a destination of their choice while staying on track toward graduation. By planning to complete general education requirements and electives abroad during the fall semester of sophomore year, students can explore opportunities across the University of Arizona's global study abroad portfolio without delaying progress toward their degree. Students interested in studying abroad during a different semester are encouraged to meet with their academic advisor to develop an individualized degree plan that incorporates their study abroad goals.

To complete major-specific coursework abroad, BSIS students are encouraged to explore InfoSci's Information Science Global Tracks in **London**, **Madrid** and **Seoul** and consider InfoSci's faculty-led Summer Program in **Orvieto, Italy**. Learn more at **infosci.arizona.edu/study-abroad**.
